

K L University Women's Forum

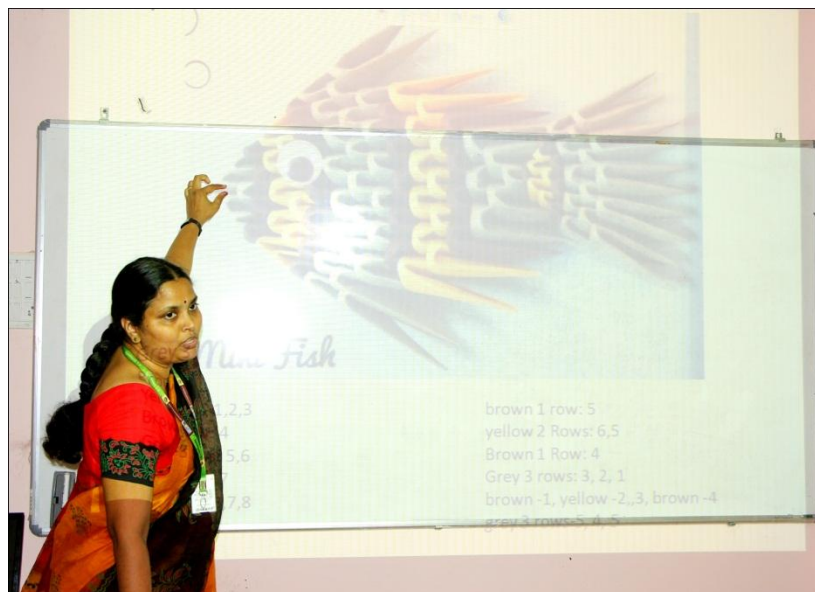

Department of Electrical and Electronics Engineering

Dt.11-06-2016

EEE Department Women's Forum conducted a workshop on Japanese paper art- Origami in F-002, English Language Lab from 2:00 to 4:00 P.M on 10th June 2016 by Mrs.D.Sudha EEE, Women's Forum In charge.

Resource Person Mrs.P.Tripura, Assistant Professor, EEE department, who is an expert in this art gave a brief view about Origami. **Origami**, derived from *ori* meaning "folding", and *kami* meaning "paper" is the art of paper folding, which is often associated with Japanese culture. In modern usage, the word "origami" is used as an inclusive term for all folding practices, regardless of their culture of origin. Basically, Origami is of two types, Action Origami and Modular Origami.

Later she started the session by training the participants in making basic origami folds and creating beautiful sculptures using modular origami. Participants divided into groups and she demonstrated how to make a fish using modular origami. All the participants actively participated and prepared the sculpture with the help of the resource person.

In the last half an hour a competition was held for the participants to make a flower vase. Dr.S.V.N.L.Lalitha, Convener, K L U Women's Forum graced the occasion. She informed that K L U Women's forum always conducts programmes related to women for their all-round development and she appreciated the coordinator for conducting the workshop and participants for participating actively in the workshop.

At last prizes were distributed to the winners by Dr.S.V.N.L.Lalitha. Participants felt the workshop as very useful and felt very happy for learning a new art.
